

PR Associates

Driving compliance and energy efficiency in schools.

PR Associates Ltd is a Chartered Building Consultancy specialising in the education sector. The organisation works with Local Authority run, Voluntary Aided and Academy schools to create world-class learning environments.

A trusted partnership to deliver Service Level Agreements

PR Associates operate Service Level Agreements (SLAs) that are designed to meet the needs of every school.

The flexible approach ensures schools only pay for what they need, with a tailored service that puts the school in control. Zenergi has partnered with PR Associates for more than eight years, delivering three of the services within the agreement.

Compliance services for schools

Zenergi's services for PR Associates keep its schools up to date with energy compliance, as well as driving energy efficiency to reduce costs and carbon emissions.

Zenergi delivers Display Energy Certificates and Recommendation Reports; Energy Performance Certificates; and TM44 Air Conditioning Inspections.

Zenergi's long-standing relationship with the building surveyor is testament to the high quality and value-for-money service provided.

A streamlined approach and excellent communication ensures that PR Associates meet customer expectations and schools can focus on their priorities, safe in the knowledge that they are compliant.

In order to meet the requirements of the SLA, Zenergi is trusted to deliver a high-quality service in a cost-effective and efficient manner.

Zenergi's services for PR Associates keep its schools up to date with energy compliance, as well as driving energy efficiency to reduce costs and carbon emissions.

Zenergi provides an excellent service to our company and over 100 schools that we work with. The team are very responsive, offering advice and acting quickly to update Display Energy Certificates and TM44 certificates as and when required. I am very happy with the efficient service they give and would highly recommend them.
