

Energy Savings Opportunity Scheme - Lite

A streamlined, cost-effective route to compliance.

The Energy Savings Opportunity Scheme (ESOS) is a mandatory energy assessment scheme enforced by the Environment Agency.

With our ESOS Lite service, compliance is simplified for organisations with internal capability or a small portfolio.

We make compliance easy.

ESOS compliance doesn't have to be complicated

If you're revisiting compliance after previous phases, the process can often feel bigger than it needs to.

In many cases, company details and identified opportunities change very little between phases. That's why our Lite service is here to streamline your process, offering full compliance and ESOS governance, with minimal time and expense.

Phase 4 compliance

For the current reporting phase (6 December 2023 – 5 December 2027), you will need to comply if either of the following applies:

250+
Members of staff

£44 million+
Annual turnover and annual
balance sheet over £38 million

What is ESOS Lite?

Our ESOS Lite service includes:

- A project kick off call
- Site visits
- Proven Zenergi templates to support your data collection
- Identification of energy-saving opportunities
- Full ESOS compliance sign off by Zenergi Lead ESOS Assessors
- QA, governance and audit delivery
- Guidance for submission on the MESOS portal

Who is it for?

Our ESOS Lite service is ideal for organisations:

- with minimal assets
- that complied with ESOS Phase 3
- that need to comply due to turnover only and that operate rented spaces with equipment owned by the landlord
- with limited or generic energy-saving opportunities
- with in-house resource to manage data collection

Why choose Zenergi's Lite service?

Your responsibilities

- Energy and transport data collection
- Assessment stage company information
- Submission onto the MESOS portal.

Experienced energy assessors

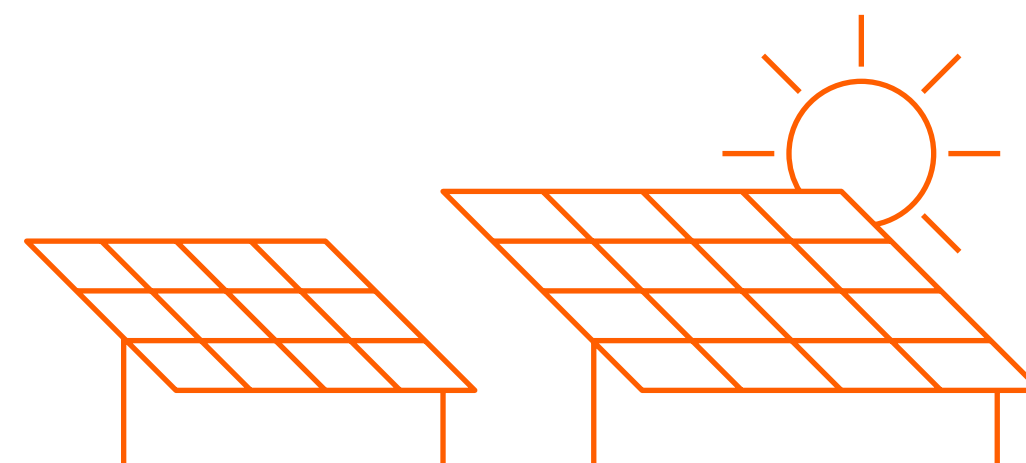

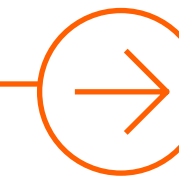

You'll have an expert team of energy consultants, analysts and ESOS Lead Assessors on hand to help you and ensure full compliance and governance.

Benefits

- Cost-effective service
- Fast report delivery, avoiding delays, especially approaching deadline
- Full ESOS compliance
- Guidance from ESOS experts.

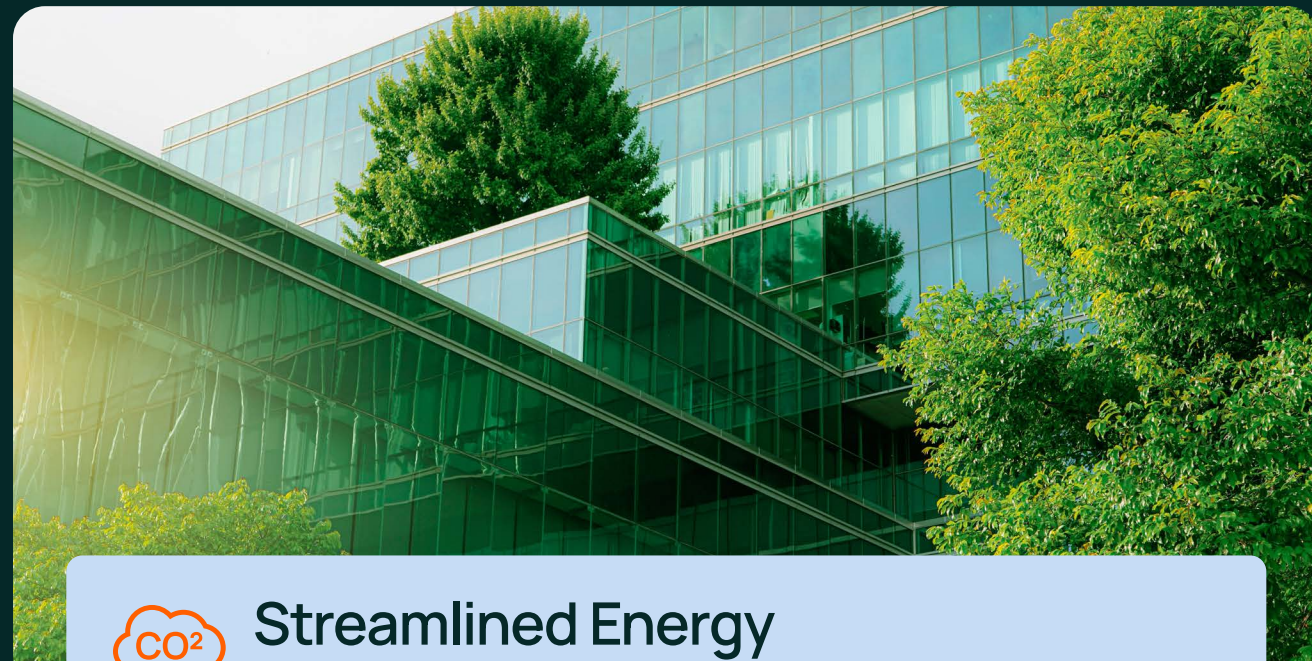

ESOS Action Plan

If you need additional support for your ESOS Action Plan and annual progress updates, our team can help.

Ready to explore further compliance challenges?

We can help you improve energy performance and raise standards.

Streamlined Energy & Carbon Reporting

It's possible to reduce annual energy costs by 20% through improved energy management. Find out how with our Streamlined Energy and Carbon Reporting (SECR) service, supporting both your sustainability ambitions and compliance requirements.

TM44 Air Conditioning Inspections

Our accredited assessors will review the efficiency of your system, check for faults and provide advice on how to make it more cost effective to run. We'll ensure you're compliant with regulations and provide a full report, detailing findings and next stage recommendations.
