# ESOS Compliance & Efficiency Pack

Helping energy-intensive organisations reduce costs, improve efficiency and stay compliant.

By bringing together ESOS Phase 4, Streamlined Energy and Carbon Reporting (SECR) and Climate Change Agreement (CCA) support, organisations can reduce duplication, improve visibility and identify opportunities to lower energy costs.

Zenergi's **ESOS Compliance & Efficiency Pack** brings together your key energy compliance requirements into one coordinated programme, helping you reduce complexity, improve visibility and save up to 20% compared to purchasing services individually.

## What's included?

The **ESOS Compliance & Efficiency Pack** combines the following complementary support, different aspects of energy reporting, compliance and efficiency management.

This four-year package includes:

- Energy Savings Opportunity Scheme (ESOS) Phase 4 Assessment
- Annual ESOS Progress Updates
- Streamlined Energy and Carbon Reporting (SECR)
- Climate Change Agreement (CCA) Support

## Save up to 20%

compared to purchasing services individually and discover how a coordinated approach can help you save time, reduce costs and improve efficiency..

## More than compliance

By combining services into one programme, organisations gain better value and a simpler approach through one trusted partner.

The result is greater visibility of energy performance, stronger reporting confidence and more opportunities to improve efficiency and control costs - with less time spent on administration.

# A bespoke energy package

Tailored compliance, procurement, cost and sustainability support built around your organisation.

Every organisation has different priorities, estate challenges, budget pressures and reporting requirements, and managing separate energy, compliance and sustainability services quickly becomes complex.

Our **bespoke packages** bring services together into one coordinated programme, helping organisations simplify delivery, reduce duplication and make more informed decisions, supporting cost, efficiency and sustainability goals.

Save up to  
**20%**

## What's included?

A **bespoke package** can bring together carefully selected services across our Comply, Buy, Deliver and Net Zero service areas. This means your organisation can build a package around the outcomes that matter most – from meeting regulatory obligations, to simplifying utility management, improving energy performance or progressing towards carbon reduction targets.

- Compliance-led support with value
- Energy procurement services
- Operational efficiency & energy optimisation
- Sustainability & net zero support

## Save up to 20%

Speak to our specialists for a tailored quotation and discover how a coordinated approach can help your organisation save time, reduce costs and improve efficiency.

## Built around your needs

A bespoke package gives your organisation the flexibility to choose services that match your priorities and adapt as needs change.

Whether your focus is compliance, utility management, operational improvement or sustainability, we can build a package that supports your needs today and evolves over time.
